

PRIORITIES

FIRST TERM OF OFFICE 2013/2014

Assisting in the process of articulating Municipal Climate Policies as well as establishing greenhouse gas inventories in a minimum of five capitals - at least one in each region of Brazil;

Facilitating cooperation between the CB27, government, civil society and the private sector, domestically and internationally;

Stimulating a continuous exchange of successful cases among the Brazilian capital cities by offering capacity building and preparatory trainings as well as formalizing cooperation agreements between the capitals and the CB27;

Improving the performances of the heads of departments by strengthening institutional interactions which guarantee support for their environmental policies, striving for technical, scientific and financial cooperation.

SECRETARY GENERAL

Délio Malheiros
